

CHILD DEVELOPMENT

YMCA SACC (SCHOOL AGED CHILD CARE)

The YMCA of the Roses, in partnership with local school districts, offers before and after-school care within elementary school facilities across York County. Our School Age Child Care (SACC) program is designed to align with student interests, providing daily outdoor activities, homework assistance, and afternoon snacks.

QUALITY

Establishing and maintaining positive relationships with our children and their families is crucial for fostering their growth and development. Our School-Age Child Care (SACC) program is licensed by the Department of Human Services and actively participates in Keystone STARS. We also offer care during early dismissal days and closures.
